

# FIOR DI TERRA

*The boards of this teak look like been burnt by sun. They are strong and lasting, forged in the humid heat of South- East of Asia. They are shaken by irregular plots of fibers between blades of light and olive-brown nervation.*

## Technical specific

Wood	Burma teak
Thickness	15 mm
	Th.top layer 4 mm
Width	Multi-width*
Length	from 700 to 3000 mm
Selection	Knot-free
Back	Spruce
Fire resistance class	Cfl-s1
Formaldehyde emission	E1 (<0,1ppm)
Conductivity	0,14 W/mK
Thermal resistance	0,10 K/W
Weight	9 Kg/mq
Humidity	10%+ / -2%
Hardness	35 N/mm²

\*Multi-width: from 3 to 5 mixed types of width, according to quality and availability

Fior di Fiemme | Fior di Terra | knot-free and brushed
